

## The right combination between performance and small size

The VHW201 is the new vacuum cleaner ideal to be fitted next to the process machine when a small footprint is available.

The VHW201 is the new 0,4kW industrial vacuum cleaner conceived to be placed next to the process machine in food, pharmaceutical, chemical, packaging, laser and OEM applications. The small footprint makes it suitable for any location in these applications.

The optional HEPA14 filters - both Upstream and Downstream - make it suitable for collecting the very fine dust while the Z22 version has been designed to be used in ATEX applications.

The new container and lid locking systems allow an easy removal and emptying of the container for maintenance operations, while the handles makes it extremely easy to carry.

- GMP conformity for pharmaceutical, food and chemical applications
- Small footprint
- Continuous duty (24/7)
- Explosion proof ATEX version
- Silent
- Absolute filtration for very fine dust
- Stainless steel version
- Easy to use
